

DipStick Pro® Professional Core Sampler

DipStick Pro® is the only true grease & sludge core sampler available. It will produce an accurate core sample the first time and every time.

Repeatable, defensible results are now a reality

Standard 10 ft. segmented size with custom sizes available.

Applications:

Grease Interceptors / Grease Traps

Septic Tanks / Lift Stations

Digesters / Sludge Pits

Features:

The DipStick Pro® is constructed with corrosion resistant, machined aluminum and impact resistant resin. The DipStick Pro® is the only core sampler that uses a “ball valve” technology to get a true core sample. The DipStick Pro® also uses a t-handle and arm lever to operate the ball valve consistently. This cutting-edge technology and design ensure a true core sample that is repeatable. The DipStick Pro® features a replaceable wear tip and is available in a standard 10 foot (2 piece 6’ and 4’) length featuring our **NEW** Quick Release System. Other core samplers, on the market, are designed with objects that restrict the sample, causing irregular results and inability for consistent accuracy.

Custom lengths are available to meet all of your measuring requirements. An impact resistant carrying case and 4 foot cleaning brush are also available.

Benefits:

Be able to accurately determine the amount of sludge and scum in septic tanks, digesters and sludge pits. Also great for measuring FOG in grease traps, grease interceptors and lift stations. The readings are accurate and defensible. Very minimal training is required for correct use.

How to Use:

This use is a simple 4 step process:

- Insert the DipStick Pro® into the trap
- Pull the actuator handle
- Remove the DipStick Pro® from the trap
- Read the amount of scum, sludge and free water

Ordering Information:

F2624EA	\$299.95	6' DipStick Pro® & 4' extension featuring our NEW Quick Coupling System
F2624FT	\$10.00	Additional length extension available at \$10 per foot
	\$20.00	Set-up fee
F2631EA	\$20.00	4' Cleaning Brush
F2630EA	\$59.95	Impact resistant carrying case with quick release end cap
S/H	\$30.00	S/H (covers DipStick Pro®)
	\$10.00	S/H (covers the carrying case) (Outside US, shipping charges vary)
